With my final research paper submission approaching, the need for including a table contents (TOC) has made me realized how troublesome inline level 3 headings were.. Step 3 Step 3: Highlight only the paragraph break icon and go to the Format menu and select Font.

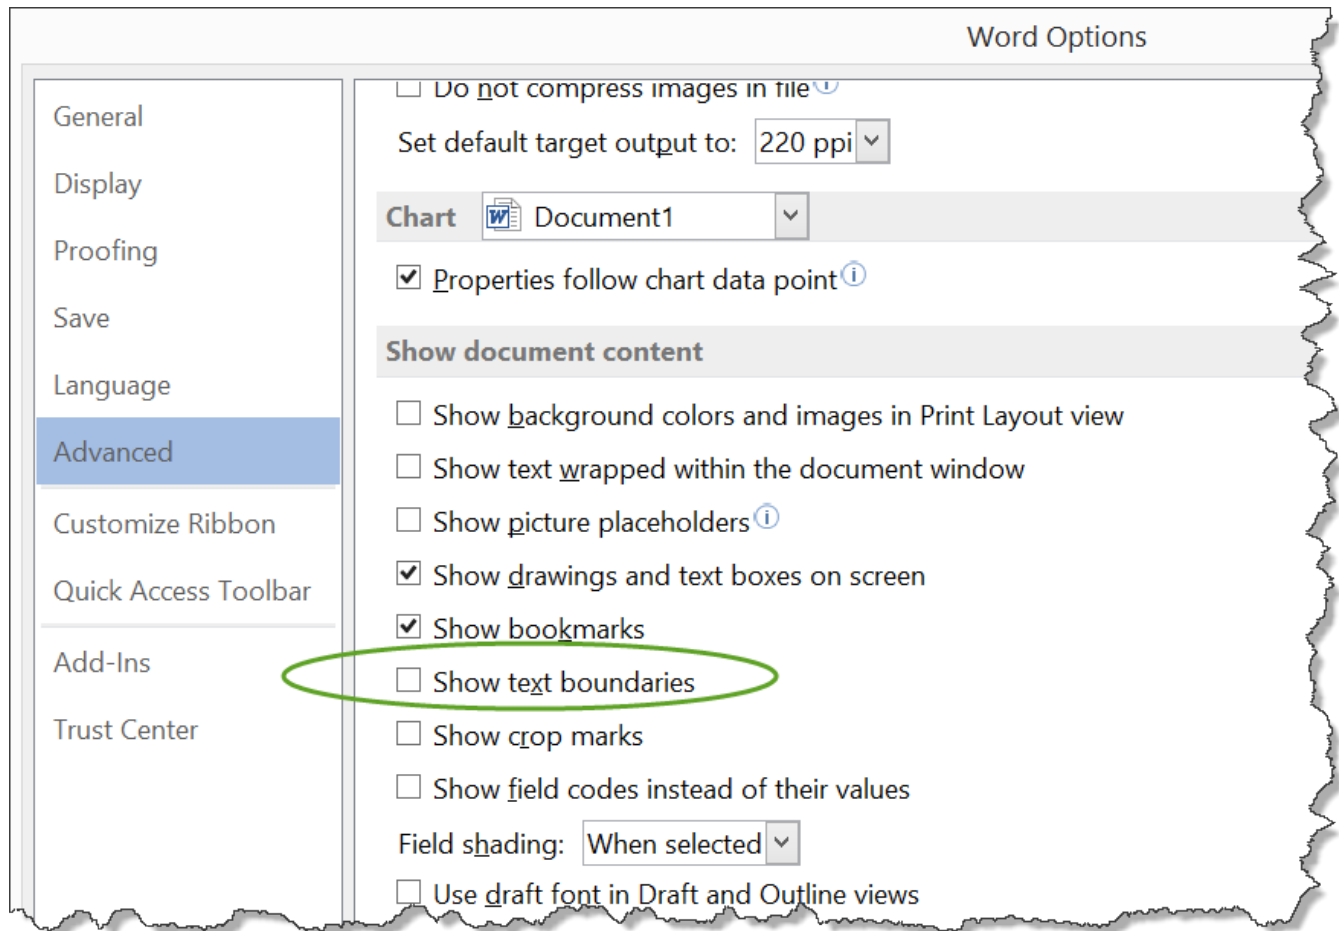

1. [hide paragraph marks word](#)
2. [show hide paragraph marks word](#)
3. [show hide paragraph marks word mac](#)

Step 5 Step 5: Highlight your level 3 heading and apply your Heading 3 style from the Styles menu.. What made things even more difficult was that I use Microsoft Word for Mac, so options like 'style separators' don't exist in my version of Word.. To display the dialog box: In Word 97-2003, click Tools| Options, View tab In Word 2007, click Office button| Word Options| Display category.

hide paragraph marks word

I've never really had trouble applying level 3 headings to my research papers in the past until now.. Select Display from the listing at the left Have you tried clicking the ¶ button as suggested earlier in this thread? If that doesn't work, you will have to display the Options dialog box and clear the 'paragraph marks' option.. You're all done ? *Level 3 headings are lowercase, bold face, and indented with a period at the end.. In Word 2010, on the File tab, click Options In Word 2007, from the Office Button menu, select Word Options near the bottom right corner of the menu.

show hide paragraph marks word

Luckily, I figured out a work-around for formatting inline level 3 APA headings using Microsoft Word for Mac; and it only takes 5 simple steps! Formatting Inline Level 3 APA Headings Step 1 Step 1: Apply your body text style to the entire paragraph.. Your heading should begin with an uppercase character and your paragraph text will continue after the heading's period (inline).. When I applied my level 3 heading styles, it would apply the style to the entire paragraph.. Ant video downloader for opera Then uncheck 'show hidden characters' from the control menu.. Even worse, it would add the entire paragraph to my TOC After multiple online searches, I couldn't find any resolutions for this issue.

show hide paragraph marks word mac

Step 2 Step 2: Turn on Hidden Characters and place your cursor after your heading and hit the 'enter/return' key to create a new paragraph break.. To display or hide formatting marks (e g , spaces, tabs, and paragraph breaks) in a Microsoft Word document: Word for Windows.. Best program for gopro editing mac Step 4 Step 4: Check the hidden box to hide the paragraph break icon.
