[Lightbown And Spada How Languages Are Learned Pdf Compressor](#)

The behaviourist perspective applied to second language learning

- Audiolingual instruction: A dominant approach to foreign language teaching from the 1940s to the 1960s, especially in North America.

- Activities emphasized mimicry and memorization.

- Concern that habits formed in the first language would interfere with new ones for second language learning.

- Thus, behaviourism linked with contrastive analysis.
